Note : 1.This table is compiled from the monthly occupational accidents reports and statistics submitted by employers in accordance with provisions of Article 38 of the "Occupational Safety and Health Act" and Article 51 of the "Enforcement Rules of the Occupational Safety and Health Act".

2.The current data cannot be compared with the data prior to 2004 because we revised the content of occupational disaster statistics tables and amended the method of submitting occupational disaster in 2005.

Remark : (1)The year data of reporting business entities and workers add up to the average in a fiscal year.

(2)The term " workers " referred to in this sheet means laborers prior to 2014,and then it means laborers or other people engaged in work and directed or supervised by the responsible people in workplaces.

(3)Disabling Injury Frequency Rate=(Times of disabling injury×10<sup>6</sup>)÷Total Person-work Hours(excluding after the third decimal point).

(4)Disabling Injury Severity Rate=(Total Work Days lost×10<sup>6</sup>)÷Total Person-work Hours(excluding after the third decimal point).

(5)Data series in the table exclude the traffic accidents on the commute.
